GREENLANDS

1936

Twelve years have passed since I prepared my first little iris list. Years packed full of joy and sorrow, with the garden a haven of refuge in times of stress. Years full of many interests, of business cares that banished me from our Virginia garden for the greater part of each year. Years full of gardening violently in Virginia in summer, trying to make up for lost time, and peacefully in Texas during the fall, winter, and spring.

Years that were full of trying new plants; of making plant friends; of renewing old friendships; of happy hours spent in coaxing willing or reluctant native plants to share our garden and bloom; and the ever recurring interest of crossing this with that, waiting for seed to form, to germinate, and finally the wonderful thrill of seeing the resultant plants grow to maturity and bloom.

One of the greatest interests brought by these years has been the comparison of the behavior of plants in the two gardens, especially that of iris rhizomes. Those of some varieties that have large or fairly large rhizomes in Virginia, dwindle perceptibly in Texas, without however effecting the bloom. These same roots replanted in Virginia, quickly regain their normal size. Some iris that were not remarkable in Virginia were very beautiful in Texas, while others that were lovely in Virginia refused to grow in Texas. So to the usual interest of growing beautiful and worth while iris was added the incentive to grow those that would do well in both places.

One thing to be remembered when planting iris in Texas, and I also prefer the practice in Virginia, is to cover the rhizome with at least an inch of dirt. Planting "as a duck sits in water" just went wrong down there. Good drainage.

Hemerocallis are happy in both climates, doing well in sun or shade, provided they are planted in a loose rich soil and watered during very dry spells.

Narcissus need only to be planted in a well drained spot, left alone, and the bulbs allowed to die naturally, to give lovely bloom for many years before division is needed.

Rosalie Dumble Davis.

NEW GREENLANDS INTRODUCTIONS FOR 1936

TALL BEARDED IRIS

Ridgeway's color chart used
in official descriptions.

DIMPLES - (Davis 1936) Shekinah X ---. Standards aniline yellow at claw fading to maize, faintly flushed rose purple. Falls pale rose purple, flushed lilac purple; veined dull magenta purple with flash of aniline yellow at haft. Styles aniline yellow, rib rose purple. Beard cadmium tint bronze. Flower 4X4 inches, ruffled. Stalk 30 inches.

With the iridescence and general color effect of the Tallmaier rose - a lovely iris. \$ 3.00

KING NOTTOC - (Davis 1936) Shekinah X ---. Standards and falls white flushed at claw and haft lemon yellow; falls heavily veined pyrite yellow at haft; Standards edged lemon yellow two thirds up. Styles white, rib pyrite yellow. Beard cadmium deepening to chrome. Flower 4½ X 4½ inches; stalk 30 inches.

Clear cut, bright and effective. Stock limited. \$10.00

NO-STATION - (Davis 1936) Record lost. Standards pallid blue violet deepening to pale violet blue. Falls pale bluish violet flushed amethyst violet. Styles broad, fringed, pale violet blue. Haft white veined old gold. Beard white, tip lemon. Standards broad, cupped; falls broad, flaring. Flower 6 X 6 inches, stalk 30 inches.

This huge flower is beautifully shaped, well placed on the stalk for grace, and is very lovely. \$15.00

PECOS - (Davis 1936) Mother of Pearl & Dominion. Standards Bradley's violet, falls velvety anthracene violet, flushed petunia violet at center. Styles white, crest and rib Bradley's Violet. Beard white tint apricot. Standards conic, falls flaring. Flower 5 X 5½ inches; stalk 38 inches.

For a number of years I have selfishly kept this lovely iris to myself until the insistent demands from garden visitors have compelled its naming and introduction. \$ 3.00

SAXET - (Davis 1936) Record lost. Standards deep dull bluish violet, veined and flushed old gold; falls nigrosin violet, flushed and veined ox-blood red. Haft white heavily veined old gold. Styles deep dull bluish violet with amber edge. Beard orange. Standards broad, cupped; falls flaring. Flower 5 X

GREENLANDS

5 inches; stalk 30 inches. Unusual and pleasing. Effect of puckered silk.

This is truly an artists flower, charming either in garden or vase. Stock limited. \$10.00

RIO GRANDE - (Davis 1936) Lewis Trowbridge X Halfdan. Standards Verbena violet; falls light hyssop violet, flushed hyssop violet at center. Haft ivory veined old gold. Claw slightly veined old gold. Styles verbena violet, rib hyssop violet. Beard white, tip primuline yellow. Standards conic, falls drooping; both broad, ruffled. Flower 4 X 5 $\frac{1}{2}$ inches; stalk 36 inches.

In effect a very lovely pale blue self of an unusually rich satiny finish. \$ 3.00

SHIMMER - (Davis 1936) Shekinah X ---. Standards cream edged naples yellow, flushed amber at claw. Falls pale verbena violet, flushed and edged rose buff, veined old gold at haft. Styles amber. Beard heavy, primuline yellow tip orange. Standards cupped, ruffled; falls flaring. Flower 4 $\frac{1}{2}$ X 4 inches; stalk 36 inches.

This is one of the very loveliest of Shekinah's daughters. The coloring is very rich and - it shimmers. \$10.00

SIVAD - (Davis 1936) Crusader X Dominion. Standards light lavender violet, falls anthracene violet, flushed manganese violet. Styles fringed, light lavender violet; edge ivory; rib ivory. Claw and haft reticulated naples yellow. Beard primuline yellow. Flower 6 X 5 inches; stalk 38 inches.

A truly magnificent flower. Stock limited. \$15.00

SUGAR CANE - (Davis 1936) Crusader X Dominion. Standards cream with undertone of pale rose purple, flushed at claw and edge mustard yellow; falls pale rose purple, flushed liseran purple, and veined old gold. Styles naples yellow edged mustard, rib mustard. Beard primuline yellow tip orange. Standards cupped, falls drooping. Flower 4 X 4 $\frac{1}{2}$ inches; stalk 36 inches. Very floriferous.

An unusual and lovely flower, with the substance of its parents and a decided break in coloring. \$ 7.50

OTHER EFFECTS-INTRODUCTIONS IN BEARDED IRIS

sale this year.

AMBER GLOW - (Davis 1931) A lovely, silky, graceful flower of pale mauve with wire edge and center of amber. 30 in. \$1.00

COW BOY - (Davis 1931) Sturdy, softly rounded, pale blue flowers of heavy satiny texture. 30 in. \$1.00

CRIMSON CLOVER - (Davis 1935) Have you ever seen a field of crimson clover? If so you know the rich coloring of this lovely iris. Ruffled conic standards blend from bronze to light vinaceous purple; horizontally held falls shade from carmin to dark maroon at edge. The large flowers, 3 inches high by 6 wide, are gracefully spaced on the 34 inch stalk. \$10.00

DULCE ALAMO - (Davis 1931) Rich creamy ivory flushed yellow at center. The ruffled standards of heavy satiny texture are arching, curved; falls velvety, drooping, slightly veined amine yellow. Beard cadmium yellow deepening to orange. Flowers 5 X 5 inches; stalk 36 inches. A pleasing fragrance adds to the charm of this lovely iris. The only yellow to bloom on the year after year in Texas. \$7.50

FANNY GRAY - (Davis 1931) Charming medium sized flowers of pale violet flushed velvety pansy violet. 23 in. \$0.50

FAX - (Davis 1931) A tiny flower of Bradley's violet with splotch of velvety hyacinth violet on center of the flaring falls. Narrow ribbon like foliage. 25 to 28 in. \$0.50

FRAGILE - (Davis 1935) Not a large flower, just medium size, nine or more to a 30 inch stalk. Crystalline white standards stitched on edge light lavender violet. Falls like white chiffon velvet daintily etched with light lavender violet. Styles light lavender violet; beard white. Just lovely. Stock limited. \$15.00

HOUSTONIAN - (Davis 1931) Pale creamy pink flushed hortense violet, Haft cream with gold reticulations; Beard amber yellow. A

5
GREENLANDS

lovely fragrant flower $3\frac{1}{2}$ X 5 inches on 30 inch stalk.
Long blooming season. \$2.50

KINGS CROWN - (Davis 1924) An exquisite shade of rose.

LAVENDER KIDS - (Davis 1931) An exquisite light lavender violet
with decided pink underglow. Exceptionally clear color
and beautifully shaped flowers with the texture of fine
crepe-de-chine. \$1.00

MILLY MITCHELL - (Davis 1931) A magnificent flower of indescrib-
ably rich coloring. The large flowers, 5 X 6 inches, are
gracefully spaced on the low branched, 40 inch stalk.
Standards are a lovely blend of dull dark purple, bronze,
and red. Falls dark purple shot through with rose and
chinese violet. Beard ochre yellow. Standards and falls
both very broad, the heavy velvet of the falls carrying
into the heart. Foliage tall and broad. Very fragrant.
\$10.00

SAN JACINTO - (Davis 1931) Huge flowers with very broad standards
and falls of delicate pink lavender flashed violet, with
deep yellow beard. Very fine fragrance. 36 in. \$5.00

SIS - (Davis 1931) Dwarf. Pale pinkish buff flushed rosy violet,
with honey yellow beard. General effect orchid pink.

TEXAS RANGER - (Davis 1931) An outstanding violet bicolor, with
a type and style of its own. Huge flowers on 40 in. stems.

HEMEROCALLIS

BUTTER BALL - (Davis 1935) Daintiest blooms of waxy buttercup yellow,
with charmingly reflexed petals. \$1.50

CAPUCINE - (Davis 1936) Double. Outer petals capucine yellow,
inner petals Mikado orange, the throat cadmium yellow
with splash of Brazil red. General effect soft yellow.
34 in. Stock limited. \$5.00

LEMON CUP - (Davis 1936) Long narrow trumpet of deep lemon yellow.

GREENLANDS

- low, with widely expanded brim. 44 inches. \$1.50
- OLD IVORY - (Davis 1935) Flowers of palest creamy yellow on slender graceful stalks. \$1.50
- PRETTY MAID - (Davis 1935) Medium sized flowers with ruffled petals of dainty yellow. \$1.50
- QUEEN BESS - (Davis 1935) More double than Kranso. Outer petals apricot red. Inner petals Mikado orange flushed salmon orange. Throat apricot red. Flushed lemon chrome, with touch of Naval red. Color effect apricot. 48 in. \$1.50
- RENEE - (Davis 1935) Pear shaped flowers of light yellow with pink underflow. 52 in. Very fine. \$3.00
- SILVER TIP - (Davis 1936) A decided break in coloring. Amber yellow fading to straw yellow, with a prominent white tip on the petals like a spot of white paint. 48 inches. Stock limited. \$5.00
- SYMPHONY - (Davis 1936) Perfectly formed trumpets carried on tall graceful stems. Outside of trumpet soft lemon yellow, inside pinard lit by large cadmium yellow anthers. 56 inches. A symphony in form and color. \$5.00
- THE DUCHESS - (Davis 1936) Huge flowers, the beauty of whose long widely expanded trumpets of heavy textured pinard yellow is enhanced by large anthers of chrome yellow. 48 inches. \$5.00

nectary, which is deeply edged with red. \$0.50; Doz. \$5.00

JONQUILS & THEIR HYBRIDS

In this division are placed all jonquils
and all hybrids where the characteristics
prevail.

JONQUILLA - Character clusters of small yellow flowers that are
delicately fragrant. True type. Doz. \$1.00

JONQUILLA DOUBLE - The lovely double form of the above. \$0.25;

CAMPFELLE ODORUS - Clusters of bright yellow fragrant flowers.
Doz. \$0.85

CAMPFELLE ODORUS RUGULOSUS - Rather large rich yellow flowers
two to four to a stem. Doz. \$1.00

BUTTERCUP - Hybrid. Handsome flowers of rich buttercup yellow.
\$0.15

GOLDEN SCYPHE - Another hybrid with large golden sweetly
scented flowers. \$0.15

SPECIES

BULBOCODIUM - The tiny dainty, Hoop Petticoat Daffodil.

GARDEN GIM - Sometimes offered as Biflorus, and placed under
various classifications. White perianth and yellow
cup, from one to four flowers to stem. Late flowering
and fine for naturalizing. Doz. \$0.65; 100, \$4.50

ODEMENTS

LEUCOSTEM VERNUM - SNOW LARK. Dainty white flowers tint with
yellow. \$0.10; Doz. \$0.75

MISCARE BOTRYCHIES - Snowflake. Spikes of dark blue
flowers. Doz. \$0.50

CANTHOGALUM UMBELLATUM - Star of Bethlehem. A tiny bulb that
produces starry white flowers. Doz. \$0.65

GREENLANDS

BUSINESS TERMS

Prices in this catalogue supplant those in all previous catalogues and price lists. Unless otherwise indicated prices are for one bulb, rhizome, or plant. We do not prepay transportation charges but instead allow the selection of additional plants or bulbs to the value of 10% on any order amounting to \$1.00 or more. If wanted by Parcel Post add sufficient money to cover. Be sure and state your Express Office when different from your Postal address. Please write your name and address plainly.

We guarantee our stock to be all true, healthy, and to reach you in good growing condition. But we cannot accept any responsibility for the results of planting. We make every effort to keep our stock true to name; if an error occurs, please write us and let us correct it.

Orders are filled and filled in rotation as received. Stock of some varieties is small, and refunds are made for any varieties that are sold out unless second choice is mentioned, or we are requested to substitute a variety of equal or better value. Order early and avoid disappointment.

TERMS: All prices are net. Cash with order, either by check, draft, or money order. We do not ship C. O. D.

SHIPMENTS can be made on BILLIARD IRIS any time after blooming until as late as the weather permits in fall. NEMEOCALLIS in early spring and fall. MARCISSUS and spring flowering bulbs in fall. Please state when wanted.

NOTE: ORDERS FOR BULBS MUST BE IN BY JUNE FIRST as we only dig those ordered. We do not follow the two year cropping system that is customary with most commercial growers, and which produces bulbs of large and uniform size. Some of our stock has been in the ground from four to eight years or longer, and consequently the bulbs when dug are of the same large size as uniform size as those from above plan. We consider that the method we follow produces stronger, healthier bulbs and better bloom.
